ACI Construction Monitor \$3,300

**\$3,300 for ACI customers and
\$2,200 for HIA members**

aci
AUSTRALIAN CONSTRUCTION INSIGHTS
Research powered by HIA Economics

The ACI Construction Monitor is Australia's premier non-residential construction market report. The Annual subscription provides four reports released quarterly.

ACI Construction Monitor provides detailed analysis, commentary and forecasts regarding contemporary developments and the future outlook across the commercial building, industrial construction, and engineering industry sectors.

The ACI Construction Monitor is a comprehensive report which includes:

- Commentary around the latest construction data;
- Analysis of conditions in the construction labour market;
- Discussion of prevailing sentiment among business operators in the industry;
- Developments in the prices of inputs into construction;
- Performance of businesses within the industry;
- A snapshot of industry composition;
- The impact of currency market developments;
- Interrogation of capital investment by the public sector;
- National and state by state coverage;
- Industry forecasts
