

ACI Construction Monitor

The ACI Construction Monitor is Australia's premier non-residential construction market report.

Released quarterly, the ACI Construction Monitor provides detailed analysis, commentary and forecasts regarding contemporary developments and the future outlook across the commercial building, industrial construction, and engineering industry sectors. The ACI Construction Monitor report is an invaluable asset for industry leaders seeking to make informed business decisions.

Analysis of commercial building considers the following major industry sub-sectors:

- Retail and wholesale trade;
- Transport buildings;
- Office buildings;
- Other commercial premises;
- Education buildings;
- Religious buildings;
- Aged care facilities;
- Health buildings;
- Entertainment and recreation buildings;
- Accommodation buildings; and
- Other non-residential buildings.

Analysis of industrial construction considers the following major industry sub-sectors:

- Factories;
- Warehouses;
- Agricultural buildings; and
- Other industrial buildings.

Analysis of engineering construction considers the following major industry sub-sectors:

- Roads, highways and subdivisions;
- Bridges, railways and harbours;
- Electricity generation, transmission etc. and pipelines;
- Water storage and supply, sewerage and drainage;
- Telecommunications;
- Heavy industry; and
- Recreation and other engineering construction

The ACI Construction Monitor is a comprehensive report which includes:

- Commentary around the latest construction data;
- Analysis of conditions in the construction labour market;
- Discussion of prevailing sentiment among business operators in the industry;
- Developments in the prices of inputs into construction;
- Performance of businesses within the industry;
- A snapshot of industry composition;
- The impact of currency market developments;
- Interrogation of capital investment by the public sector;
- National and state by state coverage;
- Industry forecasts.

The ACI Construction Monitor is competitively priced at \$3,000 + GST. This includes a soft copy of the report together with an Excel file containing relevant data and forecasts.
